

COVI -WAR

- A COVID AWARENESS GAME

- PREPARED BY:

- GUNJAN KUMAR

- PRATEEK CHAUDHURY

THEME

- The world is dealing with covid crisis. If you go out, you have a risk of catching covid. Also, you can't live without earning for so long as this crisis doesn't seem to end soon. When we go out, we need to take precautions in order to remain safe.
- In order to model this situation, we have a maze which represents the streets and workplace. In order to represent people, we have a man(or 2) who move in the maze and collect coins or basically earn money. But going out is also associated with covid risks. There are viruses roaming in the maze which can infect the person. So, the person has to take precautions and remain away from them. If he gets infected, he needs to get treated within proper time to get well. In the maze, there are medicines, sanitizers, and vaccines which have to be used for taking precautions and getting well. If the person's health gets to zero, he dies and loses the game. In order to win the game, he needs to collect all coins without dying from the virus.

RULES

- Initially the game screen pops up. You just need to press RETURN key to continue.
- Select a mode. You can switch between the single and the dual mode using the UP and DOWN keys.
- For single player, you can move through the map using the UP, DOWN, LEFT and RIGHT key.
- For 2 player, the first player has the same controls. Second player can move using the A, W, S and D keys.

RULES

- Collect the coins moving throughout the map. Each coin gives 20 points.
- Stay away from the virus as much as possible.
- At start you have 3 lives.
- If virus catches you, your health starts decreasing and you have to reach the med before the health gets out.
- You can pick up boosters like sanitizers and masks.
- Sanitizers can kill the virus. Mask can be used only to stay safe from virus.

RULES

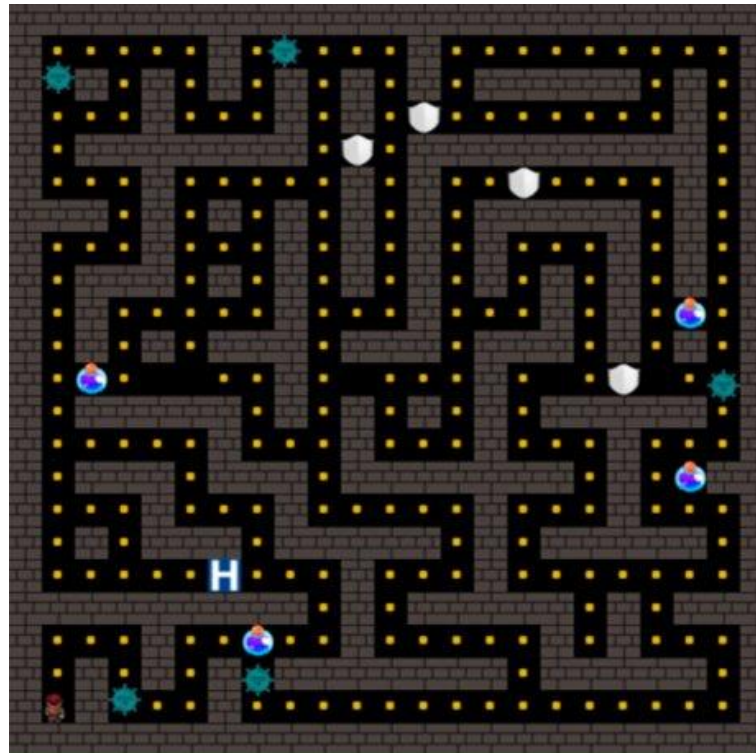

- Click SPACE to pause any time to take a break and come back with full concentration.
- Keep checking the score of yours and the 2nd player.
- Game bar also shows your current player stats:
- Blue - - > Mask boost
- Yellow -- > Health
- Pink - - > sanitizer boost

PAUSE

STAGES

- Game has 2 levels.
- The points and lives are carried on to next stage.
- The viruses get re initialized.
- Clear this and you will conquer covid.

POINTS

- Collecting coins gives 10 point each time.
- Passing nearby of enemy with a mask gives 100 points as awareness points.
- Using sanitizer to kill enemy gives you 500 points.
- Successfully getting cured at hospital after getting infected is awarded with 200.
- Having 3 lifes left at the end does not give any extra points. Play with aggression.
- Play calculated.

HOW TO WIN

SINGLE PLAYER

- Collect all the coins with the 3 lives clearing both stage 1 and stage 2 to win the game.
- Congratulations, you conquered COVID.

2 PLAYER

- Collect all the coins with the 3 lives clearing both stage 1 and stage 2 to win the game.
- If any player life gets finished before all the coins gets collected, then he loses.
- If neither player dies, the winner is the one with more points.
- So, play as aggressive as required. Good luck.
